THE DAILY NEWS.

Newport:

MONDAY MAY 9, 1847.

BY O. V. JACKSON, 97-THAMES-ST.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the DAILY HERALD, and greater than the combined circulation of the DAILY and WEEKLY HERALD. As one proof of this fact, the list of letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

The damage that the steamer Governor sustained by getting ashore on Fisher's Island has been repaired, and she has resumed her place in the line. She arrived here at 8 o'clock on Saturday morning, was detained outside by a dense fog till that hour.

Capt. Jewett, of the Governor, is a fine man, and one of the best steamboat captains on Long Island Sound. We have heard of several of the passengers who were on board this boat when she went ashore speak of the calmness of Capt. Jewett; no excitement was manifested in his manner of giving orders, but he gave them with deliberation and coolness—his usual style. But very few men placed in his situation, could have commanded their self-possession. The Governor went out at a distance of about three miles from where the Atlantic went to pieces.

There is a letter in the Postoffice bearing the following direction, which has not been sent because the inland postage has not been paid on it.

Capt. Benjamin Dyer, care of Messrs. Baring & Brothers, Liverpool, England, via Boston.

There is also one bearing a German direction addressed to some body in Wurtzburg, via Liverpool, which has not been sent because the inland postage has not been paid.

The postal arrangements between the United States and England is such, at present, that the inland postage on all letters mailed for any part of England must be pre-paid, or they cannot go. The letter bearing the German direction would have been sent, had not "via Liverpool" been on it.

If those who deposited these letters in the Postoffice are anxious that they should reach their destination, they must call and pay the inland postage—that is, the postage to New York or Boston, whichever place a steamer sails from first.

The Union Magazine for May contains two engravings, "Clara and Lucy," "Spring time," fashion plate for the month, besides several engravings on wood, and two pages of music. The articles are from Mrs. Child, Mrs. Butler, Mrs. Osgood, G. W. Peach, M. Woodworth, Mrs. Kirkland and others, and are as good as usual. The engravings this month are not equal to those of former numbers, but then it is not to be expected that the engravings of a magazine can always be of the first order.

The following are some of Gen. Taylor's sentiments, expressed in a letter to his brother-in-law, Captain Allison: "Upon the subject of the tariff, the currency, the improvement of our great highways, rivers, lakes, and harbors, the will of the people, as expressed through their representatives in Congress, ought to be respected and carried out by the Executive." The Gen. says, "that he sincerely rejoices at the prospect of peace, and looks upon war, at all times, as a national calamity; and that the principle of our government, as well as its true policy, is opposed to the subjugation of other nations and the dismemberment of other empires by conquest."

It appears to be understood in Washington that, for the purpose of paying the first instalment of the three millions immediately on the ratification of the treaty, three drafts for four hundred thousand dollars each were sent out last week. They are on parties in Mexico. Authority is believed to have been given some time since to draw on the United States Treasury for a sum equal to these drafts; only in case of the ratification of the treaty of course. It is probable that anticipations of a deep shave in negotiating any such paper in that country, induced this change in the method of supplying these necessary funds for the consummation of the treaty.

RHODE ISLAND LEGISLATURE.

FIRST SESSION.

Friday evening.

The House assembled at 8 o'clock. Several accounts were received and ordered to be paid.

Concurrences from the Senate were read on the acts amending the Judiciary of the State; on the resolutions congratulating the French nation on their recent successful revolution; and also on certain acts of incorporation, private petitions &c.

The following resolutions were unanimously passed:

Resolved, that the thanks of this General Assembly be tendered to Surgeon Richard S. Satterlee, Medical Director of the Army in the field, Assistant Surgeon Francis L. Wheaton; Captain James L. Mason and Lieut. Isaac J. Stevens, of the Engineers; Captain Thomas W. Sherman, of the Artillery; Major Joseph S. Plummer, Captain Silas Casey, George W. Patten, John S. Slocum and Lieut. Glackin, of the Infantry, for their gallant and distinguished conduct in the Mexican war; and to all other officers and soldiers, like them, natives or citizens of Rhode Island, who have served with honor in Mexico.

Resolved that his Excellency the Governor be requested to cause a copy of this resolution, under the seal of the State, to be transmitted to each of the officers above named.

On motion of Mr. Hilden, of Providence, His Excellency the Governor and the Honorable Senate were invited to join the House for the purpose of proceeding in the election.

IN GRAND COMMITTEE.

The Governor stated that the Grand Committee had met to proceed in the election, and he was ready to hear the nominations.

The following elections were then made:

Richard Ward Greene, Chief Justice of the Supreme Court.

William Gilpin, Clerk of the Supreme Court of the County of Newport.

Walter Paine, Jr., Clerk of the Supreme Court of the County of Providence.

Powell Helme, Clerk of the Supreme Court of the County of Washington.

The election of Clerks of the Supreme Court for the Counties of Bristol and Kent were postponed until June.

Daniel C. Denham, Clerk of the Court of Common Pleas for the County of Newport.

The election of Clerk of Common Pleas for the County of Providence was postponed until June.

John G. Clarke, Jr., Clerk of the Court of Common Pleas for the County of Washington.

Masendore T. Bennett, Clerk of the Court of Common Pleas for the County of Bristol.

The election of Clerk of the Court of Common Pleas for the County of Kent was postponed until June.

William H. Douglass, Sheriff of New-
port County.

Roger W. Potter, Sheriff of Providence County.

Thomas Willcox, Sheriff of Washington County.

Stephen Johnston, Sheriff of Bristol Co.

Thomas Bateman, Sheriff of Kent Co.

The Public Notaries, in the several Coun-

ties, who made their returns for the last

year, were re-elected.

Mr. Clarke, of Newport, stated that Benjamin Mumford, one of the Notaries of the County of Newport, was Cashier of a Bank, and under the rule of the Grand Committee, his name ought to be stricken

from the list.

It was voted to adhere to the rule, and

appoint no Cashier of a Bank as a Notary,

unless in cases where there was no one else

who would accept the appointment in the

vicinity of the Banks which might need

them.

Samuel Clarke was elected a Notary

Public for the County of Newport.

The election of Justices of the Peace

for many of the towns was postponed un-

til June; in other towns, the old ones were

re-elected.

Benjamin Mumford was elected a Justice

of the Peace for the town of Newport; the

election of the remaining Justices for this

town was postponed until June.

The election of Inspector General of

Scythe Stones, of Lime and of Beef and Pork, was postponed until June.

Joseph L. Barber, William French, W. H. S. Bailey Inspector of Ferries.

Edward S. Wilkinson Agent of the Providence and Pawtucket Turnpike.

E. S. Wilkinson, Stephen Randall, and

Isaac Thurber Commissioners of Providence and Washington Bridge.

Allen O. Peck, W. J. Hartt and G. L. Dwight Rail Road Commissioner.

Thomas J. Branch, Allen Baker, and G. L. Dwight Commissioners of Shell Fisheries.

Thomas J. Stead was elected Major General of the State in place of John B. Steadman, Jr., who resigned.

Louis C. Merrill was elected Brigadier General of the Fourth Brigade, in the place of Joseph H. Arnold, who resigned.

The Grand Committee then rose.

House.—Several concurrences from the Senate were read.

The accounts of C. G. Perry, B. T. Barnes, W. H. Noyes, W. H. Douglass, W. C. Thurston, Henry Taggart, James Westgate, James Lawton, and J. S. Douglass were allowed and ordered to be paid.

At about 12 o'clock, the General Assembly adjourned to meet in Newport on the 26th of June next.

SEXTE.—The petition of the Town of Newport for a City Charter was taken up Friday afternoon. W. H. Potter, Esq., of Providence, was heard at the Bar, in behalf of certain citizens of the town who had memorialized the Legislature not to grant the Charter. William Ennis, Esq., of Newport, one of the Committee appointed by the Town to obtain the Charter, replied to Mr. Potter.

Mr. Edward Clarke, of Newport, moved that a vote of three fifths of all those voting be required to adopt the charter; this motion was lost. The Ayes and Noes were taken, on granting the Petition, and resulted as follows:

Ayes.—Messrs. E. W. Lawton, Ballou, Bradford, Chadsey, Fisher, R. W. Greene, Hazard, Holdredge, Hoxie, Hubbard, Osborne, Pearce, E. R. Potter, Reynolds, Shippee, Smith, Whitman, Wilbur, 18.

Nos.—Angell, Arnold, Barker, Edward Clarke, Eddy, Goodwin, Nathaniel Greene, Kenyon, Lapham, Andrew F. Potter, Winsor, 11.

EXPLORING THE DEAD SEA.—We have already noticed the arrival at Constantinople of the expedition to the Dead Sea, and the Sultan, when informed of the project, could not well understand its object, but expressed an entire willingness to afford the gentlemen every facility in the investigation. We do not, however, anticipate any very important results from the expedition.

The Lake Aaphaiton or Dead Sea has evidently been formed from some subter-

anean fire, the whole surrounding country being full of bitumen, and probably the doomed cities were erected on this foun-

dation of Naphtha, which, on taking fire, the whole extent was formed into a lake, the waters of which are exceedingly heavy

and bitter. The depth of the water will be ascertained, and its specific gravity, and probably some interesting reminiscences, but here it will end. The lake was al-

ways in a desolate, barren position, near which nothing could flourish. We should

think that dragging the Tiber would be a much more profitable operation, if we are to believe what history tells us, that some

of the Roman Emperors, after giving a splendid dinner party, ordered the golden dishes and pitchers to be thrown into the Tiber, and the tables replenished with

fresh plates. A more interesting memory has been recently presented to Congress, and received with favor. It is proposed to

set on foot an expedition to the most Southern available position on the Western Conti-

ntinent, for the purpose of making observations on the planet Venus, with a view to

a more accurate determination of the solar

distance of our own planet from the sun, but the dimensions of the orbits of all the bodies of our solar system. The utility is to

present data for a new and more accurate determination of the longitude. The proposed station in Chili will afford an ample

base of 6,000 miles. The committee re-

commended an increase of the appropria-

tion of \$5,000.—N. Y. Star.

It was voted to adhere to the rule, and

appoint no Cashier of a Bank as a Notary,

unless in cases where there was no one else

who would accept the appointment in the

vicinity of the Banks which might need

them.

Samuel Clarke was elected a Notary

Public for the County of Newport.

Strawberries.

Mr. Newland, (of Palmyra Wayne Co., N.Y.)
make the proprietor of the MAMMOTH ALPINE,
which is now in this place with his plants. The numerous
testimonials from the most respectable inhabitants
of Palmyra, are undoubted evidence of their
superior quality to any others, continuing, as they
do to produce ripe fruit for over 2 months. Persons
wishing plants will please to leave their
name at the boarding house of Joseph Fish, on
Broad st., near the State House, or call on Mr.
X. as he is distributing plants through the place.
The following extract we copy from the Niagara
Democrat of Lockport, N.Y.

The MAMMOTH ALPINE STRAWBERRY.—The
proprietor of this excellent variety of a delicious
fruit, is in town, with some of his plants. Those
desiring them may rely implicitly upon any repre-
sentations he may make. We speak from a long
personal acquaintance with him, and his general
reputation for integrity. Those who certify to
the character of his fruit, are well known, and
highly respectable citizens of Palmyra.

Mutual Benefit Life Insurance Co. (Office No 21 Wall-st, N. Y.)

A *Advantage seen by the System of Life Insurance now in successful operation in this company.*

ST. Those in good health, of the proper age, and of sound constitution, will be insured at the lowest rate of premiums.

2d. The premium, if over \$50, can be paid once

fourth in cash, and three-fourths in a secured note

at 12 months, bearing 6 per cent. interest, and

subject to assessments if required, or it may be

paid weekly, monthly, or quarterly.

3d. Annual division of profits in scrip certificates which bear 6 per cent interest, and if re-

quired a sum of two-thirds on the scrip will be

made in cash—the profits can be added to in-

crease the sum insured.

4th. No persons are liable beyond the amount

of their premium.

5th. Married women may insure the lives of

their husbands, see *etc.* from any demands of their

creditors, if the premium does not exceed \$300

per annum.

6th. Creditors may insure their debtors, or

debtors themselves, for the protection of credit-

ors.

7th. An insurance can be made so that the

sum insured will be paid on attaining a specified

age, or so near the event of death.

8th. All claims on policies will be paid three

months after notice and proof of death.

9th. No risk will be taken on any one life ex-

ceeding \$5000, until the surplus profits amount to

\$50,000; then the amount of risk on a single life

will be gradually extended as the funds of the

Company augment.

10th. No Director or Officer can obtain a loan

of the Company.

11th. When the net profits of the Company a-

mount to \$200,000, the excess will be applied to

wards the redemption of Scrip, giving priority to

that first issued: but the amount of \$200,000, in

addition to the reinsurance fund, will be kept as a

permanent fund, in which the members have a

pro rata interest.

12th. The funds of the Company to be invested

by the Finance Committee in bonds and first

mortgages on unencumbered real estate, the actual

value of which is twice the amount loaned—or in

stocks of the United States, or of the States of N.

Yock, New Jersey, Massachusetts, and Maine, or

loaned to members on their Scrip.

13th. No part of the profits is withheld, or re-

verted from the assured in any way.

14th. There is no stock or loan, either nominal

or real, to pay interest for; the company having

a single capital in the premiums received.

15th. It enables man to provide for a wife and

children, in such a way, that although he may lose

all, *they are safe*; and all persons, whether married

or unmarried, to provide for old age, sickness, and

death, as well as for death.

16th. It does not reckon the assured a year

older than he is—but from six months less, to six

years more, so as to equalize the same between

all parties.

17th. It pays no directors, auditors, or solicitors.

18th. A portion of the directors and the officers

are chosen yearly, and the members vote acci-

ding to interest.

19th. The assured can surrender the policy at

any time after a term of years, and receive its equi-

table value.

20th. Every precaution is taken to prevent a

forfeiture of policy.

The Mutual Benefit Life Insurance Company, is authorized by its charter to make all and every insurance appertaining to or connected with Life, risks of whatsoever kind or nature, and will grant annuities and make endowments, as by the Act of incorporation, passed the 30th January, 1815.

The Directors of this Company, deeply impressed

with the very great, useful, and growing importance

to the community at large of Life Insurance,

would call the attention of the public to the

following observations and principles, as intended

to explain to them its peculiar advantages, and the

particular features of this valuable institution.

It is seen above how extensive the privileges are,

reaching to every risk appertaining to or connected

with life; guarding and supporting infancy to old

age, in all grades of professions and trades; orphans,

widows and their children, by a small annual

investment, on the principle of *Mutual Benefit*,

rising from Mutual Insurance, being a self-

protective society. In this there is no Monop-

oly Stock; the funds or capital arise from premiums

paid in when persons make insurance, and these

form the means to make payments on policies,

grant loans, pay expenses, and yield profits. All

persons insured become members, but are not lia-

ble beyond the amount of the premiums to be paid

by them. The books of the company are open to

them, to see that the sums paid, or securities re-

ceived, are deposited or invested according to

the charter, and the net profits, at fixed periods, are

divided among them, as hereafter explained. The

table of figures, and the rules, are made and cal-

culated with accuracy, after the experience and

practice of old English companies, and all persons

can see by them how much they have to pay, and

the gains they will be likely to receive. This plan

protects the *Notting Bank* and *Mutual Inter-*

ests, affording the security of the one, and gain of

the other, and is entirely benevolent in its opera-

tions; it also embraces a provision for Married

Women to insure the lives of their husbands for

any amount, the premium of which shall not ex-

ceed \$300 per annum, and is secured to them

against any demands in law, or creditors.

The greatest portion of society, who by daily

exertions of industry earn support, as *artisans* and

merchants, deriving livelihood from personal labor and skill, seldom resort to Life Insurance, in any

numbers, for a future provision for their families

though to none would it be so important as to

those who, by sickness and death, may in a day

leave those nearest and dearest to them in poverty.

To those in mercantile pursuits and those in pro-

fession, *laborers* of every rank and class, or those

who have uncertain or small incomes, and who

are in straits in wealth in the aggregate, and

have it in their power to provide against the vicis-

ties they are constantly exposed to, Life Insur-

ance is of the utmost importance; they, and those

in lower circumstances, are often deterred from entering into contracts of insurance, as the

advantages appear remote—being contingent on

death, or ability to pay the premiums.

To assist all such, this *Mutual Benefit* society

arranges the payment of the premiums, and of

returns in part of the same, so as to enable all per-

sons to be some members, and enjoy its advantages

while living; thus protecting themselves in life,

and providing for their families after their death;

in this way a short life may obtain, and leave to

the benefit of a long one.

This Company will grant insurance on lives, on

the *Mutual principle*, to applicants upon their own

lives, or the lives of others, for the whole duration

of life, or for a limited period, at the rates specified

in the tables, for sound and healthy persons.

ST. Those in good health, of the proper age,
